

Our Story

Founded in 2018 by experienced Afghan educators, OASE emerged from a long-standing partnership with VUSAF, a German NGO.

Since the establishment, with funds from different donors, we have implemented projects that have contributed to the education and welfare quality of Afghans.

We have a board of 5 members who volunteer to lead the organization.

OASE is an Afghan NGO transforming lives through education, health and emergency response. We partner with communities to create sustainable opportunities and provide vital support. Together, we are building the foundation for a stronger nation.

Our Presence

"Before OASE, our children studied under tents. Now they have a proper building and trained teachers. This has changed the future of our entire area."

M. Alim, SDC Member of Khwaja Parsa School

Our Impact in Numbers

+43 Projects

We have completed over 43 projects since our establishment in various sectors, including education, healthcare, emergency aid, and support for orphans.

7.1 Million USD

Since 2018, we have implemented projects worth over \$ 7 million, contributing to the economic and infrastructure development of Afghanistan.

Gender Equality

Over 60 percent of our staff are female, who are not only financially independent but also contribute to the effective implementation of our projects.

Our Focus

Quality Education

We organize courses, teacher assistantship, and teacher training programs.

School Construction

Our teams have constructed and repaired over 30 schools across the country.

Emergency Aid

Through emergency aid projects, OASE has always stayed beside the Afghan people in difficult situations.

Orphans Support

We give orphans the care and opportunities they deserve.
